1 Abstract

Let's summarize our findings here in a very concise manner! But in the mean time I'm just going to write a ton about nothing so we can pad this out a little bit. Because of course what would our test thesis look like if it was just random headings with no content? Clearly that just won't do, but I digress I'd just like to comment on the fact that I went to bed at 4am last night; that's unheard of for me! You should be so proud of yourself for keeping such a morning person like me awake so close to my usual wake up time. Having said all this the conclusion is quite obvious, I regret nothing and that was a wonderful evening!
